Establishment of the company

With tremendous efforts and relentless pursuit, Advanced Elements was established in 2016 by a team with more than 15 years of experience in the field of contracting and construction to keep up with the economic developments in the United Arab Emirates.

Who we are?

Stability that extends over time, excellence embodied in every detail, with Advanced Elements we embody uniqueness and innovation in the world of contracting. Our team with long experience, spanning more than 15 years, combines science and art to present exceptional projects that meet your aspirations, where originality and development meet to create a promising future.

Our services

Building villas and residential compounds

Building Warehouses and industrial buildings

General maintenance for buildings and villas

Carrying out interior decoration works

Carrying out Fit-out works

Execution of all kinds of external works

The vision

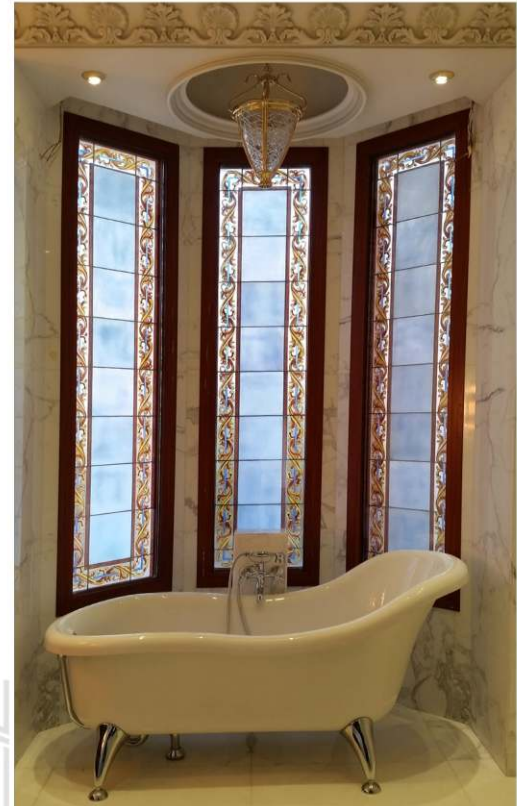

We strive with all our energy and capabilities to provide the best contracting services to all customers, seeking to do so through the use of the long experience of the work team and the development of our capabilities so that they are creative and keep pace with modern designs.

The mission

Our mission in Advanced Elements lies in spreading the culture of quality in its true sense in the field of general contracting, through the work team's mastery of the tasks assigned to them, in our belief that mastering work is the only way to stay in the elite of leading companies in providing the best services at the most appropriate cost.

Goals and values

We at Advanced Elements have a strong goal represented in building long-term partnerships with many of our clients in the Emirates, and we do our best to achieve this goal in order to meet the aspirations and needs of our current and future customers,

And we know that success must be enveloped in the values, ethics and principles that we have taken from our society. We were distinguished by our credibility and integrity in dealing, and we were also able to perfect our work in accordance with the highest quality standards.

Quality policy

We at Advanced Elements consider our quality policy as evidence of our commitment to excellence and the continuation of achieving the highest levels of quality in all aspects of our work.

Our policy includes :

customers satisfaction

We always strive to understand our customers' needs and expectations, and work hard to meet these needs in a superior manner according to the specified deadlines

Quality and standards

We are committed to achieving the highest quality standards at all stages of projects, and we ensure that our work is carried out accurately and in accordance with specifications and standards

Innovation and sustainability

We seek to provide constructive and innovative solutions that reflect technological development and achieve environmental and economic sustainability

Employee Development

Our investment in developing the skills of our employees through training and continuing education ensures that they are aware of the latest practices and technologies

Staff safety

We take great care to ensure the safety and health of our employees and all individuals involved in our projects

We also welcome the comments of our customers and business partners to help us improve our performance and provide the best services.
